Service Agreement: Atelier Lumière Online Ordering

Agreement reference: SA-PRJ-DEMO-001, signed on 12 October 2026. It implements the project specification CDC-PRJ-DEMO-001, version 1.0.

Synthetic demonstration document. The client, people and figures are fictional.

Article 1. Purpose

This agreement sets the legal and financial terms under which the freelancer builds the Atelier Lumière online ordering application described in the project specification CDC-PRJ-DEMO-001. The specification defines the scope, the requirements and the milestones. If this agreement and the specification disagree on a legal or financial term, this agreement prevails.

Article 2. Price and payment

- The fixed price is 18,000 TND excluding VAT, invoiced per milestone: 20% at M1, 30% at M2, 30% at M3 and 20% at final acceptance.
- Invoices are payable within 15 days. A late payment bears interest of 1% per month of delay, and the freelancer may pause work after 30 days of non-payment, with written notice.
- Approved change requests are invoiced separately, at a day rate of 600 TND excluding VAT.

Article 3. Acceptance of milestones

The client confirms acceptance of a milestone in writing, by email to the freelancer. If the client neither accepts the milestone nor reports a blocking defect within 5 business days of delivery, the milestone is deemed accepted.

Article 4. Maintenance after the warranty

After the 60-day warranty defined in the specification, the client may subscribe to optional maintenance for 450 TND excluding VAT per month, for a minimum of 6 months. Maintenance covers security updates of the application's dependencies and up to 4 hours of corrections per month. Unused hours are not carried over to the next month.

Article 5. Liability

The freelancer's total liability under this agreement is limited to the fixed price of 18,000 TND. This limit does not apply to a breach of confidentiality or of the personal data obligations of Article 7.

Article 6. Subcontracting

The freelancer does not subcontract any part of the work without the client's prior written consent. A consented subcontractor is bound by the same confidentiality and personal data obligations as the freelancer.

Article 7. Personal data

The freelancer processes customer personal data only to build and test the application, and only on servers located in Tunisia or the European Union. Test data is anonymised. Within 30 days after the end of the project, the freelancer deletes every copy of the client's personal data and confirms the deletion in writing.

Article 8. Termination

Either party may terminate with 15 days of written notice. Milestones already accepted are paid in full, and work in progress on the current milestone is paid in proportion to the work delivered.

Article 9. Disputes and governing law

This agreement is governed by Tunisian law. The parties first try to settle any dispute amicably within 30 days. If no settlement is reached, the dispute goes to the competent courts of Sousse.
