CR-01 Client Project Briefs: JOB-001 to JOB-005

Document ID: CR-01 | Category A: Client requirements

1. Document metadata

Field	Value
Document ID	CR-01
Filename	CR-01_Project_Briefs_JOB-001_to_JOB-005.pdf
Category	A - Client requirements
Version	1.0
Creation date	2026-10-14
Data status	Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values
Main topics	Project brief; ecommerce; Budget and deadline constraints; saas; ai; cloud; mobile
Relevant skills and technologies	Angular; Spring Boot; PostgreSQL; Docker; Unit testing; TypeScript; RxJS; NgRx; Accessibility; Python; RAG pipeline; Vector search; FastAPI; LLM evaluation; Kubernetes; CI/CD; Terraform; Monitoring; AWS; Flutter; Dart; Offline storage; Firebase push
Relevant entity IDs	JOB-001, JOB-002, JOB-003, JOB-004, JOB-005, PRP-001, PRP-002, PRP-003, PRP-004, PRP-005, PRP-006, PRP-007, PRP-008, PRP-009, PRP-010, PRP-011, PRP-012, PRP-013, PRP-014, PRP-015, PRP-016, PRP-017

Purpose and scope: this PDF consolidates 5 source documents (JOB-001 to JOB-005). Each source keeps its own ID in every section heading, so chunks stay attributable, for example [DOC:JOB-001/...].

2. Executive summary

JOB-001 (B2B ordering portal (Angular + Spring Boot)) is a fictional medium-complexity ecommerce job posted by Atlas Industrial Supplies (fictional) on 2026-09-14. Preferred budget USD 9,000, hard limit USD 11,000, deadline 12 weeks (soft). Mandatory skills: Angular, Spring Boot. JOB-002 (Analytics dashboard front end) is a fictional low-complexity saas job posted by Helix Analytics (fictional) on 2026-09-16. Preferred budget USD 4,000, hard limit USD 5,000, deadline 6 weeks (hard). Mandatory skills: Angular. This PDF contains 5 source documents in total.

3. JOB-001: JOB-001 Project Brief: B2B ordering portal (Angular + Spring Boot)

Source document ID: JOB-001 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-001 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-001 executive summary

JOB-001 (B2B ordering portal (Angular + Spring Boot)) is a fictional medium-complexity ecommerce job posted by Atlas Industrial Supplies (fictional) on 2026-09-14. Preferred budget USD 9,000, hard limit USD 11,000, deadline 12 weeks (soft). Mandatory skills: Angular, Spring Boot.

JOB-001 - Business context and goals

Atlas Industrial Supplies sells 4,500 spare parts to business customers by phone and email. Orders are re-typed by staff, causing errors and slow turnaround.

- Let registered business customers place and track orders online.
- Cut manual order re-entry by at least half (client target, not guaranteed).

Synthetic data notice: JOB-001, Atlas Industrial Supplies (fictional) and all figures are fictional.

JOB-001 - Scope

In scope for JOB-001

- Customer login and company accounts.
- Catalog search with filters.
- Order placement, order history and status.
- Staff view to export orders.

Out of scope for JOB-001

- Payment processing (invoicing stays offline).
- Mobile apps.

JOB-001 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-001.

Item	Value	Constraint type
Preferred maximum budget	USD 9,000	Preference (soft)
Hard budget limit	USD 11,000	Hard constraint
Deadline	12 weeks from award	Soft preference (up to 25% late is scored down, not rejected)
Mandatory skills	Angular, Spring Boot	Hard constraint (direct evidence needed)
Other required skills	PostgreSQL	Required, scored
Optional skills	Docker, Unit testing	Preference (scored, lower weight)
Client planning estimate of effort	420 hours (illustrative)	Planning assumption
Domain and complexity	ecommerce; medium	Context

JOB-001 - Evaluation priorities of the client

JOB-001 uses default criterion weights after normalization: Technical skill match 30.0%; Budget compatibility 25.0%; Deadline compatibility 20.0%; Relevant experience 15.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-001 - Dependencies and client responsibilities

- Client provides product data export (CSV) in week 1.
- Client provides an SMTP account.

JOB-001 - Preferences that can be traded off

- Docker-based deployment scripts.
- Unit test coverage report.

These preferences for JOB-001 improve a proposal but a proposal without them stays eligible.

JOB-001 - Evidence expected from proposals

For JOB-001, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-001 - Summary of key findings

- JOB-001 budget: preferred USD 9,000, hard limit USD 11,000.
- JOB-001 deadline: 12 weeks, soft.
- JOB-001 mandatory skills: Angular, Spring Boot.

JOB-001 - Keywords and alternative terminology

B2B ordering portal (Angular + Spring Boot); JOB-001; Atlas Industrial Supplies (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Angular; Spring Boot; PostgreSQL; Docker; Unit testing

4. JOB-002: JOB-002 Project Brief: Analytics dashboard front end

Source document ID: JOB-002 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-002 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-002 executive summary

JOB-002 (Analytics dashboard front end) is a fictional low-complexity saas job posted by Helix Analytics (fictional) on 2026-09-16. Preferred budget USD 4,000, hard limit USD 5,000, deadline 6 weeks (hard). Mandatory skills: Angular.

JOB-002 - Business context and goals

Helix Analytics needs a new front end for an existing metrics API before a customer conference on a fixed date.

- Deliver a usable analytics dashboard before the conference.
- Keep the interface accessible to keyboard users.

Synthetic data notice: JOB-002, Helix Analytics (fictional) and all figures are fictional.

JOB-002 - Scope

In scope for JOB-002

- Dashboard with 6 chart widgets.
- Date range and filter controls.
- Responsive layout.

Out of scope for JOB-002

- Back-end changes.
- User management.

JOB-002 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-002.

Item	Value	Constraint type
Preferred maximum budget	USD 4,000	Preference (soft)
Hard budget limit	USD 5,000	Hard constraint
Deadline	6 weeks from award	Hard constraint
Mandatory skills	Angular	Hard constraint (direct evidence needed)
Other required skills	TypeScript, RxJS	Required, scored
Optional skills	NgRx, Accessibility	Preference (scored, lower weight)

Item	Value	Constraint type
Client planning estimate of effort	200 hours (illustrative)	Planning assumption
Domain and complexity	saas; low	Context

JOB-002 - Evaluation priorities of the client

JOB-002 uses custom criterion weights after normalization: Technical skill match 25.0%; Budget compatibility 20.0%; Deadline compatibility 35.0%; Relevant experience 10.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-002 - Dependencies and client responsibilities

- Client provides API documentation and a test key in week 1.
- Conference date is a hard deadline.

JOB-002 - Preferences that can be traded off

- State management with NgRx.
- Accessibility audit notes.

These preferences for JOB-002 improve a proposal but a proposal without them stays eligible.

JOB-002 - Evidence expected from proposals

For JOB-002, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-002 - Summary of key findings

- JOB-002 budget: preferred USD 4,000, hard limit USD 5,000.
- JOB-002 deadline: 6 weeks, hard.
- JOB-002 mandatory skills: Angular.

JOB-002 - Keywords and alternative terminology

Analytics dashboard front end; JOB-002; Helix Analytics (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Angular; TypeScript; RxJS; NgRx; Accessibility

5. JOB-003: JOB-003 Project Brief: RAG assistant for company documents

Source document ID: JOB-003 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-003 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-003 executive summary

JOB-003 (RAG assistant for company documents) is a fictional high-complexity ai job posted by Meridian Legal Services (fictional) on 2026-09-18. Preferred budget USD 12,000, hard limit USD 15,000, deadline 10 weeks (soft). Mandatory skills: Python, RAG pipeline.

JOB-003 - Business context and goals

Meridian Legal Services holds about 900 internal guideline documents and wants staff to ask questions and receive answers with citations.

- Provide a question-answering assistant over internal documents.
- Make every answer traceable to source passages.

Synthetic data notice: JOB-003, Meridian Legal Services (fictional) and all figures are fictional.

JOB-003 - Scope

In scope for JOB-003

- Ingestion of PDF and DOCX files.
- Hybrid retrieval with metadata filters.
- Answer endpoint with citations.
- Evaluation set and report.

Out of scope for JOB-003

- Fine-tuning language models.
- User interface (API only).

JOB-003 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-003.

Item	Value	Constraint type
Preferred maximum budget	USD 12,000	Preference (soft)
Hard budget limit	USD 15,000	Hard constraint
Deadline	10 weeks from award	Soft preference (up to 25% late is scored down, not rejected)
Mandatory skills	Python, RAG pipeline	Hard constraint (direct evidence needed)
Other required skills	Vector search, FastAPI	Required, scored
Optional skills	LLM evaluation, Docker	Preference (scored, lower weight)
Client planning estimate of effort	480 hours (illustrative)	Planning assumption
Domain and complexity	ai; high	Context

JOB-003 - Evaluation priorities of the client

JOB-003 uses default criterion weights after normalization: Technical skill match 30.0%; Budget compatibility 25.0%; Deadline compatibility 20.0%; Relevant experience 15.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-003 - Dependencies and client responsibilities

- Client provides documents and subject-matter experts for evaluation questions.
- Client approves the language model provider.

JOB-003 - Preferences that can be traded off

- Automated regression check for retrieval.
- Docker packaging.

These preferences for JOB-003 improve a proposal but a proposal without them stays eligible.

JOB-003 - Evidence expected from proposals

For JOB-003, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-003 - Summary of key findings

- JOB-003 budget: preferred USD 12,000, hard limit USD 15,000.
- JOB-003 deadline: 10 weeks, soft.
- JOB-003 mandatory skills: Python, RAG pipeline.

JOB-003 - Keywords and alternative terminology

RAG assistant for company documents; JOB-003; Meridian Legal Services (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Python; RAG pipeline; Vector search; FastAPI; LLM evaluation; Docker

6. JOB-004: JOB-004 Project Brief: Kubernetes migration with CI/CD

Source document ID: JOB-004 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-004 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-004 executive summary

JOB-004 (Kubernetes migration with CI/CD) is a fictional medium-complexity cloud job posted by Brightwave Media (fictional) on 2026-09-20. Preferred budget USD 7,000, hard limit USD 9,000, deadline 8 weeks (hard). Mandatory skills: Docker, Kubernetes.

JOB-004 - Business context and goals

Brightwave Media runs six services on manually managed servers and must move them before a data-centre contract ends.

- Move the six services to containers on Kubernetes.
- Automate build and deployment.

Synthetic data notice: JOB-004, Brightwave Media (fictional) and all figures are fictional.

JOB-004 - Scope

In scope for JOB-004

- Container images for six services.
- CI/CD pipelines.
- Infrastructure as code.
- Basic monitoring.

Out of scope for JOB-004

- Application code changes.
- Disaster recovery design.

JOB-004 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-004.

Item	Value	Constraint type
Preferred maximum budget	USD 7,000	Preference (soft)
Hard budget limit	USD 9,000	Hard constraint
Deadline	8 weeks from award	Hard constraint
Mandatory skills	Docker, Kubernetes	Hard constraint (direct evidence needed)

Item	Value	Constraint type
Other required skills	CI/CD, Terraform	Required, scored
Optional skills	Monitoring, AWS	Preference (scored, lower weight)
Client planning estimate of effort	240 hours (illustrative)	Planning assumption
Domain and complexity	cloud; medium	Context

JOB-004 - Evaluation priorities of the client

JOB-004 uses default criterion weights after normalization: Technical skill match 30.0%; Budget compatibility 25.0%; Deadline compatibility 20.0%; Relevant experience 15.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-004 - Dependencies and client responsibilities

- Client provides cloud account access in week 1.
- Contract end date is a hard deadline.

JOB-004 - Preferences that can be traded off

- Monitoring dashboards.
- AWS experience.

These preferences for JOB-004 improve a proposal but a proposal without them stays eligible.

JOB-004 - Evidence expected from proposals

For JOB-004, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-004 - Summary of key findings

- JOB-004 budget: preferred USD 7,000, hard limit USD 9,000.
- JOB-004 deadline: 8 weeks, hard.
- JOB-004 mandatory skills: Docker, Kubernetes.

JOB-004 - Keywords and alternative terminology

Kubernetes migration with CI/CD; JOB-004; Brightwave Media (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Docker; Kubernetes; CI/CD; Terraform; Monitoring; AWS

7. JOB-005: JOB-005 Project Brief: Flutter fitness booking app

Source document ID: JOB-005 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-005 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-005 executive summary

JOB-005 (Flutter fitness booking app) is a fictional medium-complexity mobile job posted by PulseFit Studios (fictional) on 2026-09-22. Preferred budget USD 8,000, hard limit USD 10,000, deadline 10 weeks (soft). Mandatory skills: Flutter.

JOB-005 - Business context and goals

PulseFit Studios wants members to book classes from a mobile app instead of phone calls.

- Launch a booking app for Android and iOS.

- Reduce phone bookings (client target, not guaranteed).

Synthetic data notice: JOB-005, PulseFit Studios (fictional) and all figures are fictional.

JOB-005 - Scope

In scope for JOB-005

- Class schedule and booking.
- Member profile.
- Push reminders.
- Offline view of booked classes.

Out of scope for JOB-005

- Payments.
- Admin web console.

JOB-005 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-005.

Item	Value	Constraint type
Preferred maximum budget	USD 8,000	Preference (soft)
Hard budget limit	USD 10,000	Hard constraint
Deadline	10 weeks from award	Soft preference (up to 25% late is scored down, not rejected)
Mandatory skills	Flutter	Hard constraint (direct evidence needed)
Other required skills	Dart	Required, scored
Optional skills	Offline storage, Firebase push, Unit testing	Preference (scored, lower weight)
Client planning estimate of effort	380 hours (illustrative)	Planning assumption
Domain and complexity	mobile; medium	Context

JOB-005 - Evaluation priorities of the client

JOB-005 uses default criterion weights after normalization: Technical skill match 30.0%; Budget compatibility 25.0%; Deadline compatibility 20.0%; Relevant experience 15.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-005 - Dependencies and client responsibilities

- Client provides API documentation and developer store accounts.
- Store review time is outside the freelancer's control.

JOB-005 - Preferences that can be traded off

- Firebase push experience.
- Unit tests.

These preferences for JOB-005 improve a proposal but a proposal without them stays eligible.

JOB-005 - Evidence expected from proposals

For JOB-005, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-005 - Summary of key findings

- JOB-005 budget: preferred USD 8,000, hard limit USD 10,000.
- JOB-005 deadline: 10 weeks, soft.
- JOB-005 mandatory skills: Flutter.

JOB-005 - Keywords and alternative terminology

Flutter fitness booking app; JOB-005; PulseFit Studios (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Flutter; Dart; Offline storage; Firebase push; Unit testing

8. Summary of key findings

- JOB-001: JOB-001 budget: preferred USD 9,000, hard limit USD 11,000.
- JOB-002: JOB-002 budget: preferred USD 4,000, hard limit USD 5,000.
- JOB-003: JOB-003 budget: preferred USD 12,000, hard limit USD 15,000.
- JOB-004: JOB-004 budget: preferred USD 7,000, hard limit USD 9,000.
- JOB-005: JOB-005 budget: preferred USD 8,000, hard limit USD 10,000.

9. Keywords and alternative terminology

B2B ordering portal (Angular + Spring Boot); JOB-001; Atlas Industrial Supplies (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Angular; Spring Boot; PostgreSQL; Docker; Unit testing; Analytics dashboard front end; JOB-002; Helix Analytics (fictional); TypeScript; RxJS; NgRx; Accessibility; RAG assistant for company documents; JOB-003; Meridian Legal Services (fictional); Python; RAG pipeline; Vector search; FastAPI; LLM evaluation; Kubernetes migration with CI/CD; JOB-004; Brightwave Media (fictional); Kubernetes; CI/CD; Terraform; Monitoring; AWS; Flutter fitness booking app; JOB-005; PulseFit Studios (fictional); Flutter; Dart; Offline storage; Firebase push
