CR-02 Client Project Briefs: JOB-006 to JOB-010

Document ID: CR-02 | Category A: Client requirements

1. Document metadata

Field	Value
Document ID	CR-02
Filename	CR-02_Project_Briefs_JOB-006_to_JOB-010.pdf
Category	A - Client requirements
Version	1.0
Creation date	2026-10-14
Data status	Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values
Main topics	Project brief; ai; Budget and deadline constraints; marketplace; ecommerce; cloud
Relevant skills and technologies	Python; scikit-learn; FastAPI; PyTorch; Spring Boot; Angular; PostgreSQL; REST API design; Docker; Unit testing; CI/CD; Redis; TypeScript; Accessibility; Security scanning; Monitoring
Relevant entity IDs	JOB-006, JOB-007, JOB-008, JOB-009, JOB-010, PRP-018, PRP-019, PRP-020, PRP-021, PRP-022, PRP-023, PRP-024, PRP-025, PRP-026, PRP-027, PRP-028, PRP-029, PRP-030

Purpose and scope: this PDF consolidates 5 source documents (JOB-006 to JOB-010). Each source keeps its own ID in every section heading, so chunks stay attributable, for example [DOC:JOB-006/...].

2. Executive summary

JOB-006 (Retail recommendation engine) is a fictional medium-complexity ai job posted by GreenCart Grocers (fictional) on 2026-09-24. Preferred budget USD 9,000, hard limit USD 12,000, deadline 9 weeks (soft). Mandatory skills: Python, scikit-learn. JOB-007 (Marketplace platform MVP) is a fictional high-complexity marketplace job posted by CraftLink Collective (fictional) on 2026-09-26. Preferred budget USD 15,000, hard limit USD 19,000, deadline 16 weeks (soft). Mandatory skills: Spring Boot, Angular. This PDF contains 5 source documents in total.

3. JOB-006: JOB-006 Project Brief: Retail recommendation engine

Source document ID: JOB-006 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-006 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-006 executive summary

JOB-006 (Retail recommendation engine) is a fictional medium-complexity ai job posted by GreenCart Grocers (fictional) on 2026-09-24. Preferred budget USD 9,000, hard limit USD 12,000, deadline 9 weeks (soft). Mandatory skills: Python, scikit-learn.

JOB-006 - Business context and goals

GreenCart Grocers has 150,000 online purchase events and wants 'frequently bought together' suggestions.

- Improve basket size with product suggestions.
- Measure quality against a popularity baseline.

Synthetic data notice: JOB-006, GreenCart Grocers (fictional) and all figures are fictional.

JOB-006 - Scope

In scope for JOB-006

- Item-to-item recommender.
- Offline evaluation.
- Recommendation API.

Out of scope for JOB-006

- Online A/B testing.
- Front-end changes.

JOB-006 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-006.

Item	Value	Constraint type
Preferred maximum budget	USD 9,000	Preference (soft)
Hard budget limit	USD 12,000	Hard constraint
Deadline	9 weeks from award	Soft preference (up to 25% late is scored down, not rejected)
Mandatory skills	Python, scikit-learn	Hard constraint (direct evidence needed)
Other required skills	FastAPI	Required, scored
Optional skills	PyTorch, Spring Boot	Preference (scored, lower weight)
Client planning estimate of effort	320 hours (illustrative)	Planning assumption
Domain and complexity	ai; medium	Context

JOB-006 - Evaluation priorities of the client

JOB-006 uses default criterion weights after normalization: Technical skill match 30.0%; Budget compatibility 25.0%; Deadline compatibility 20.0%; Relevant experience 15.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-006 - Dependencies and client responsibilities

- Client provides event data export and a data dictionary.

JOB-006 - Preferences that can be traded off

- Integration with the existing Spring Boot gateway.
- PyTorch experiment.

These preferences for JOB-006 improve a proposal but a proposal without them stays eligible.

JOB-006 - Evidence expected from proposals

For JOB-006, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-006 - Summary of key findings

- JOB-006 budget: preferred USD 9,000, hard limit USD 12,000.
- JOB-006 deadline: 9 weeks, soft.
- JOB-006 mandatory skills: Python, scikit-learn.

JOB-006 - Keywords and alternative terminology

Retail recommendation engine; JOB-006; GreenCart Grocers (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Python; scikit-learn; FastAPI; PyTorch; Spring Boot

4. JOB-007: JOB-007 Project Brief: Marketplace platform MVP

Source document ID: JOB-007 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-007 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-007 executive summary

JOB-007 (Marketplace platform MVP) is a fictional high-complexity marketplace job posted by CraftLink Collective (fictional) on 2026-09-26. Preferred budget USD 15,000, hard limit USD 19,000, deadline 16 weeks (soft). Mandatory skills: Spring Boot, Angular.

JOB-007 - Business context and goals

CraftLink Collective plans a marketplace where clients post craft jobs and artisans submit proposals.

- Launch an MVP marketplace.
- Provide a proposal comparison view for clients.

Synthetic data notice: JOB-007, CraftLink Collective (fictional) and all figures are fictional.

JOB-007 - Scope

In scope for JOB-007

- Job posting.
- Proposal submission.
- Client and artisan dashboards.
- Role-based access.

Out of scope for JOB-007

- Payments and escrow (phase 2).
- Mobile apps.

JOB-007 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-007.

Item	Value	Constraint type
Preferred maximum budget	USD 15,000	Preference (soft)
Hard budget limit	USD 19,000	Hard constraint
Deadline	16 weeks from award	Soft preference (up to 25% late is scored down, not rejected)
Mandatory skills	Spring Boot, Angular	Hard constraint (direct evidence needed)
Other required skills	PostgreSQL, REST API design	Required, scored
Optional skills	Docker, Unit testing, CI/CD	Preference (scored, lower weight)
Client planning estimate of effort	800 hours (illustrative)	Planning assumption
Domain and complexity	marketplace; high	Context

JOB-007 - Evaluation priorities of the client

JOB-007 uses default criterion weights after normalization: Technical skill match 30.0%; Budget compatibility 25.0%; Deadline compatibility 20.0%; Relevant experience 15.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-007 - Dependencies and client responsibilities

- Client provides design mock-ups in week 2.

JOB-007 - Preferences that can be traded off

- Docker.
- Unit testing.
- CI/CD.

These preferences for JOB-007 improve a proposal but a proposal without them stays eligible.

JOB-007 - Evidence expected from proposals

For JOB-007, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-007 - Summary of key findings

- JOB-007 budget: preferred USD 15,000, hard limit USD 19,000.
- JOB-007 deadline: 16 weeks, soft.
- JOB-007 mandatory skills: Spring Boot, Angular.

JOB-007 - Keywords and alternative terminology

Marketplace platform MVP; JOB-007; CraftLink Collective (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Spring Boot; Angular; PostgreSQL; REST API design; Docker; Unit testing; CI/CD

5. JOB-008: JOB-008 Project Brief: API performance and database tuning

Source document ID: JOB-008 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-008 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-008 executive summary

JOB-008 (API performance and database tuning) is a fictional low-complexity ecommerce job posted by Nordic Parts Online (fictional) on 2026-09-28. Preferred budget USD 3,500, hard limit USD 4,500, deadline 5 weeks (hard). Mandatory skills: Spring Boot, PostgreSQL.

JOB-008 - Business context and goals

Nordic Parts Online sees slow order pages during peak hours and needs a focused performance fix before a seasonal sale.

- Cut slow queries on order and catalog pages.
- Document changes and leave regression tests.

Synthetic data notice: JOB-008, Nordic Parts Online (fictional) and all figures are fictional.

JOB-008 - Scope

In scope for JOB-008

- Query and index review.
- Caching for catalog reads.
- Performance tests before and after.

Out of scope for JOB-008

- Feature development.
- Infrastructure changes.

JOB-008 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-008.

Item	Value	Constraint type
Preferred maximum budget	USD 3,500	Preference (soft)
Hard budget limit	USD 4,500	Hard constraint
Deadline	5 weeks from award	Hard constraint
Mandatory skills	Spring Boot, PostgreSQL	Hard constraint (direct evidence needed)
Other required skills	none	Required, scored
Optional skills	Redis, Unit testing	Preference (scored, lower weight)
Client planning estimate of effort	120 hours (illustrative)	Planning assumption
Domain and complexity	ecommerce; low	Context

JOB-008 - Evaluation priorities of the client

JOB-008 uses custom criterion weights after normalization: Technical skill match 35.0%; Budget compatibility 30.0%; Deadline compatibility 20.0%; Relevant experience 10.0%; Reviews and reputation 5.0%. Weights are normalized so that they sum to 100 percent.

JOB-008 - Dependencies and client responsibilities

- Client provides a sanitized database copy in week 1.
- The sale date is a hard deadline.

JOB-008 - Preferences that can be traded off

- Redis caching.
- Unit tests.

These preferences for JOB-008 improve a proposal but a proposal without them stays eligible.

JOB-008 - Evidence expected from proposals

For JOB-008, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-008 - Summary of key findings

- JOB-008 budget: preferred USD 3,500, hard limit USD 4,500.
- JOB-008 deadline: 5 weeks, hard.
- JOB-008 mandatory skills: Spring Boot, PostgreSQL.

JOB-008 - Keywords and alternative terminology

API performance and database tuning; JOB-008; Nordic Parts Online (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Spring Boot; PostgreSQL; Redis; Unit testing

6. JOB-009: JOB-009 Project Brief: E-commerce storefront refresh

Source document ID: JOB-009 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-009 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-009 executive summary

JOB-009 (E-commerce storefront refresh) is a fictional medium-complexity ecommerce job posted by Lumen Home Goods (fictional) on 2026-09-30. Preferred budget USD 6,000, hard limit USD 7,500, deadline 8 weeks (soft). Mandatory skills: Angular.

JOB-009 - Business context and goals

Lumen Home Goods has an outdated storefront that fails basic accessibility checks.

- Refresh the storefront interface.
- Meet common accessibility expectations.

Synthetic data notice: JOB-009, Lumen Home Goods (fictional) and all figures are fictional.

JOB-009 - Scope

In scope for JOB-009

- Product listing and detail pages.
- Cart and checkout pages.
- Accessibility fixes.

Out of scope for JOB-009

- Back-end services.
- Payment provider changes.

JOB-009 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-009.

Item	Value	Constraint type
Preferred maximum budget	USD 6,000	Preference (soft)
Hard budget limit	USD 7,500	Hard constraint
Deadline	8 weeks from award	Soft preference (up to 25% late is scored down, not rejected)
Mandatory skills	Angular	Hard constraint (direct evidence needed)
Other required skills	TypeScript, Unit testing, Accessibility	Required, scored
Optional skills	Spring Boot	Preference (scored, lower weight)
Client planning estimate of effort	260 hours (illustrative)	Planning assumption
Domain and complexity	ecommerce; medium	Context

JOB-009 - Evaluation priorities of the client

JOB-009 uses default criterion weights after normalization: Technical skill match 30.0%; Budget compatibility 25.0%; Deadline compatibility 20.0%; Relevant experience 15.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-009 - Dependencies and client responsibilities

- Client provides design guidelines and the existing API.

JOB-009 - Preferences that can be traded off

- Back-end integration experience (Spring Boot).

These preferences for JOB-009 improve a proposal but a proposal without them stays eligible.

JOB-009 - Evidence expected from proposals

For JOB-009, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-009 - Summary of key findings

- JOB-009 budget: preferred USD 6,000, hard limit USD 7,500.
- JOB-009 deadline: 8 weeks, soft.
- JOB-009 mandatory skills: Angular.

JOB-009 - Keywords and alternative terminology

E-commerce storefront refresh; JOB-009; Lumen Home Goods (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Angular; TypeScript; Unit testing; Accessibility; Spring Boot

7. JOB-010: JOB-010 Project Brief: CI/CD pipeline and container hardening

Source document ID: JOB-010 | Data status: Synthetic (fictional client and job); snapshot of the job record - the relational database is authoritative for live values

Purpose and scope: the client project brief of JOB-010 so a RAG system can retrieve what the client needs, which constraints are hard and which are preferences.

JOB-010 executive summary

JOB-010 (CI/CD pipeline and container hardening) is a fictional low-complexity cloud job posted by Quanta Software (fictional) on 2026-10-02. Preferred budget USD 4,000, hard limit USD 5,000, deadline 6 weeks (soft). Mandatory skills: Docker, CI/CD.

JOB-010 - Business context and goals

Quanta Software builds and deploys by hand and wants a repeatable pipeline with hardened containers.

- Automate build, test and deploy.
- Reduce security exposure in container images.

Synthetic data notice: JOB-010, Quanta Software (fictional) and all figures are fictional.

JOB-010 - Scope

In scope for JOB-010

- CI/CD pipeline for two services.
- Container hardening.
- Basic monitoring.

Out of scope for JOB-010

- Kubernetes migration.
- Application changes.

JOB-010 - Client constraints: mandatory versus tradeable

The table separates hard constraints, which make a proposal ineligible if violated, from preferences, which only affect the score. The values are a snapshot of the job record of JOB-010.

Item	Value	Constraint type
Preferred maximum budget	USD 4,000	Preference (soft)
Hard budget limit	USD 5,000	Hard constraint
Deadline	6 weeks from award	Soft preference (up to 25% late is scored down, not rejected)
Mandatory skills	Docker, CI/CD	Hard constraint (direct evidence needed)
Other required skills	none	Required, scored
Optional skills	Security scanning, Monitoring	Preference (scored, lower weight)
Client planning estimate of effort	140 hours (illustrative)	Planning assumption
Domain and complexity	cloud; low	Context

JOB-010 - Evaluation priorities of the client

JOB-010 uses default criterion weights after normalization: Technical skill match 30.0%; Budget compatibility 25.0%; Deadline compatibility 20.0%; Relevant experience 15.0%; Reviews and reputation 10.0%. Weights are normalized so that they sum to 100 percent.

JOB-010 - Dependencies and client responsibilities

- Client provides repository and staging access.

JOB-010 - Preferences that can be traded off

- Security scanning evidence.
- Monitoring dashboards.

These preferences for JOB-010 improve a proposal but a proposal without them stays eligible.

JOB-010 - Evidence expected from proposals

For JOB-010, proposals should state scope inclusions and exclusions, assumptions, milestone plan with payments, testing and handover effort, and relevant portfolio project IDs. See EVA-007 for the proposal quality checklist.

JOB-010 - Summary of key findings

- JOB-010 budget: preferred USD 4,000, hard limit USD 5,000.
- JOB-010 deadline: 6 weeks, soft.
- JOB-010 mandatory skills: Docker, CI/CD.

JOB-010 - Keywords and alternative terminology

CI/CD pipeline and container hardening; JOB-010; Quanta Software (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Docker; CI/CD; Security scanning; Monitoring

8. Summary of key findings

- JOB-006: JOB-006 budget: preferred USD 9,000, hard limit USD 12,000.

- JOB-007: JOB-007 budget: preferred USD 15,000, hard limit USD 19,000.
- JOB-008: JOB-008 budget: preferred USD 3,500, hard limit USD 4,500.
- JOB-009: JOB-009 budget: preferred USD 6,000, hard limit USD 7,500.
- JOB-010: JOB-010 budget: preferred USD 4,000, hard limit USD 5,000.

9. Keywords and alternative terminology

Retail recommendation engine; JOB-006; GreenCart Grocers (fictional); project brief; client requirements; job post; budget; deadline; mandatory skills; Python; scikit-learn; FastAPI; PyTorch; Spring Boot; Marketplace platform MVP; JOB-007; CraftLink Collective (fictional); Angular; PostgreSQL; REST API design; Docker; Unit testing; CI/CD; API performance and database tuning; JOB-008; Nordic Parts Online (fictional); Redis; E-commerce storefront refresh; JOB-009; Lumen Home Goods (fictional); TypeScript; Accessibility; CI/CD pipeline and container hardening; JOB-010; Quanta Software (fictional); Security scanning; Monitoring
