FP-08 Freelancer Availability, Workload and Capacity Plans

Document ID: FP-08 | Category B: Freelancer proposals

1. Document metadata

Field	Value
Document ID	FP-08
Filename	FP-08_Freelancer_Availability_and_Workload_Plans.pdf
Category	B - Freelancer proposals
Version	1.0
Creation date	2026-10-14
Data status	Synthetic snapshot computed from the fictional dataset; the relational database is authoritative for live values
Main topics	Availability; Workload; Capacity check; Concurrent proposals
Relevant skills and technologies	Capacity planning
Relevant entity IDs	FRE-001, FRE-002, FRE-003, FRE-004, FRE-005, FRE-006, PRP-001, PRP-002, PRP-003, PRP-004, PRP-005, PRP-006, PRP-007, PRP-008, PRP-009, PRP-010

Purpose and scope: show stated availability, committed hours and capacity coverage for each fictional freelancer across all proposals.

2. Executive summary

Each freelancer's proposals are checked against stated availability and effort. Concurrent award of several proposals would exceed stated availability for most freelancers.

3. How availability is used

Stated availability is hours per week a freelancer can commit. It feeds the capacity check: committed hours x weeks must be at least 80 percent of the estimated effort (EVA-003). Availability in this document is an illustrative snapshot; live availability and workload come from the database.

4. FRE-001 availability and workload (Lina Haddad)

Stated availability of FRE-001: up to 20 hours per week from 2026-11-02 (illustrative). FRE-001 has submitted 8 proposals. If all were awarded at the same time the committed hours would total 160 per week, which is 8.0 times the stated availability; the platform should check concurrent workload before award.

Proposal	Job	Weeks	Hours/week	Capacity h	Effort h	Capacity vs effort	Check
PRP-001	JOB-001	13	20	260	420	62%	Capacity risk
PRP-006	JOB-002	7	20	140	200	70%	Capacity risk
PRP-013	JOB-004	8	20	160	240	67%	Capacity risk
PRP-017	JOB-005	5	20	100	380	26%	Capacity risk
PRP-020	JOB-007	18	20	360	800	45%	Capacity risk
PRP-024	JOB-008	4	20	80	120	67%	Capacity risk
PRP-027	JOB-009	9	20	180	260	69%	Capacity risk
PRP-029	JOB-010	4	20	80	140	57%	Capacity risk

Communication indicators of FRE-001 (illustrative): Replies within about 6 working hours (illustrative); weekly written status report in PRJ-001 and PRJ-002.

5. FRE-002 availability and workload (Omar Belkacem)

Stated availability of FRE-002: up to 30 hours per week from 2026-10-26 (illustrative). FRE-002 has submitted 5 proposals. If all were awarded at the same time the committed hours would total 150 per week, which is 5.0 times the stated availability; the platform should check concurrent workload before award.

Proposal	Job	Weeks	Hours/week	Capacity h	Effort h	Capacity vs effort	Check
PRP-003	JOB-001	10	30	300	420	71%	Capacity risk
PRP-005	JOB-002	6	30	180	200	90%	ok
PRP-016	JOB-005	10	30	300	380	79%	Capacity risk
PRP-022	JOB-007	14	30	420	800	52%	Capacity risk
PRP-026	JOB-009	8	30	240	260	92%	ok

Communication indicators of FRE-002 (illustrative): Daily short written updates during PRJ-002; asked clarifying questions on 9 of 11 tickets (illustrative).

6. FRE-003 availability and workload (Sofia Marenko)

Stated availability of FRE-003: up to 20 hours per week from 2026-11-09 (illustrative). FRE-003 has submitted 7 proposals. If all were awarded at the same time the committed hours would total 115 per week, which is 5.8 times the stated availability; the platform should check concurrent workload before award.

Proposal	Job	Weeks	Hours/week	Capacity h	Effort h	Capacity vs effort	Check
PRP-002	JOB-001	12	15	180	420	43%	Capacity risk
PRP-007	JOB-002	6	15	90	200	45%	Capacity risk
PRP-010	JOB-003	10	15	150	480	31%	Capacity risk
PRP-014	JOB-004	9	20	180	240	75%	Capacity risk
PRP-019	JOB-006	9	15	135	320	42%	Capacity risk
PRP-021	JOB-007	16	15	240	800	30%	Capacity risk
PRP-023	JOB-008	5	20	100	120	83%	ok

Communication indicators of FRE-003 (illustrative): Written design notes before implementation; response time about 1 working day (illustrative).

7. FRE-004 availability and workload (Daniel Okafor)

Stated availability of FRE-004: up to 30 hours per week from 2026-11-02 (illustrative). FRE-004 has submitted 3 proposals. If all were awarded at the same time the committed hours would total 80 per week, which is 2.7 times the stated availability; the platform should check concurrent workload before award.

Proposal	Job	Weeks	Hours/week	Capacity h	Effort h	Capacity vs effort	Check
PRP-009	JOB-003	11	30	330	480	69%	Capacity risk
PRP-018	JOB-006	9	30	270	320	84%	ok
PRP-030	JOB-010	6	20	120	140	86%	ok

Communication indicators of FRE-004 (illustrative): Shares experiment logs weekly; communication is clear but documentation of failed experiments is thin (illustrative).

8. FRE-005 availability and workload (Priya Raman)

Stated availability of FRE-005: up to 25 hours per week from 2026-10-28 (illustrative). FRE-005 has submitted 4 proposals. If all were awarded at the same time the committed hours would total 95 per week, which is 3.8 times the stated availability; the platform should check concurrent workload before award.

Proposal	Job	Weeks	Hours/week	Capacity h	Effort h	Capacity vs effort	Check
PRP-011	JOB-003	9	25	225	480	47%	Capacity risk
PRP-012	JOB-004	8	25	200	240	83%	ok
PRP-025	JOB-008	5	25	125	120	104%	ok
PRP-028	JOB-010	6	20	120	140	86%	ok

Communication indicators of FRE-005 (illustrative): Runbook-style handover documents; responds in about 4 working hours (illustrative).

9. FRE-006 availability and workload (Mateo Alvarez)

Stated availability of FRE-006: up to 28 hours per week from 2026-11-02 (illustrative). FRE-006 has submitted 3 proposals. If all were awarded at the same time the committed hours would total 84 per week, which is 3.0 times the stated availability; the platform should check concurrent workload before award.

Proposal	Job	Weeks	Hours/week	Capacity h	Effort h	Capacity vs effort	Check
PRP-004	JOB-001	6	28	168	420	40%	Capacity risk
PRP-008	JOB-002	7	28	196	200	98%	ok
PRP-015	JOB-005	11	28	308	380	81%	ok

Communication indicators of FRE-006 (illustrative): Demo builds delivered every two weeks; occasional late replies on weekends (illustrative).

10. Evidence requirements and uncertainty

Availability is self-reported and can change. The assistant reports the date of the snapshot and never treats unlisted availability as zero.

11. Summary of key findings

- Capacity coverage below 80 percent is a risk flag.
- Concurrent awards must be checked against availability.
- Availability is a snapshot.

12. Keywords and alternative terminology

availability; workload; capacity; committed hours; concurrent projects; overbooking; FRE-001; FRE-002; FRE-003; FRE-004; FRE-005; FRE-006
